

SOLID FIBER

Slip Sheets

Tier Sheets

RTS' solid fiber sales team is dedicated to providing creative solutions for all your material handling needs. We offer customized solid fiber slip sheets, tier sheets, tie sheets and pallet pads for use in handling and transporting your products.

Our Pacific Northwest and Midwest manufacturing locations and networks of nation-wide packaging facilities ensure economical shipments throughout North America and easy access to major ports for overseas shipments.

Slip Sheets

Benefits

Economical: Offers significant cost savings over wood pallets, plastic pallets and plastic slip sheets.

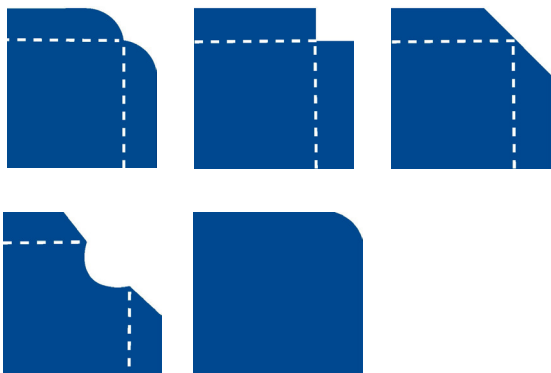

Space Saving: Based on sheet thickness, 80-150 slip sheets equal the height of one wood pallet.

Safer: Hygienic and safe for food product handling. Less weight means less injuries.

Sustainable: 100% recyclable and reusable.

Features

- Available in up to 6-ply and made from kraft linerboard paper for strength and durability.
- Slip sheets available in multiple sizes and strengths.
- In-line printing, one color.
- Non-skid & polymer top coatings available.
- Available in different corner configurations.

Note: Dotted lines are scores (folds), solid lines are cuts.

Tier Sheets

Features

A smart alternative to plastic and corrugated sheets.

- Various thickness/caliper & sizes available.
- Reusable & 100% recyclable.
- Rounded corners.
- Standard dimensions in stock.
- Custom specifications available.
